

**PÖPPELMANN®**  
**FAMAC®**

**LET'S DESIGN THE BEST  
POSSIBLE PACKAGING FOR YOUR PRODUCT  
TOGETHER.**

**WE. CREATE. FUTURE.**

# PACKAGING DEVELOPMENT IN ACCORDANCE WITH ECO DESIGN.

**Conserving resources through material use – thermoforming before injection moulding.**

Lattice structure saves up to 40 % material.

Flexible packaging instead of bottles and canisters.

Thermoformed packaging instead of injection moulded packaging.

Up to 15 % material savings thanks to foamed thermoforming film.

[OUR CASE STUDIES](#)

**Conserving resources through reusable solutions – reusable before disposable.**

Reusable and decorated to a high standard

Reusable, lightweight and robust

Microwave and dishwasher safe

[TO OUR PRODUCTS](#)

**Conserving resources through recyclability and sortability.**
