ADDED VALUES

MAXIMUM EFFICIENCY

Trouble-free destacking

The trays in the EP and TP series are easier and quicker to separate thanks to their evenly shaped contours.

Quick assembly

The uniformly punched label and carrying handle holders enable automated attachment.

Reduction in transport costs

Optimised dimensions and a better fit increase the load capacity per CC trolley and EC trolley.

Easy to separate

Thanks to an easily separable perforation, some trays in the EP series can also be used as individual sales units.

Higher space utilisation

Greater space utilisation thanks to optimised dimensions – slightly reduced weight with the same volume.

BEST PLANTS

cultivation security

Fast growth and healthy plants thanks to ideal irrigation and drainage.

Low failure rates

No impairment and damage to the roots through exposure to light.

AWARD-WINNING AND CERTIFIED.

FOR MORE RESOURCE CONSERVATION

www.blauer-engel.de/uz30a

TEKU® plant pots from the PÖPPELMANN blue® initiative are certified with the Blue Angel for their use of recycled plastic (more than 80% post-consumer recycled material).

Cyclos-certified TEKU® products are proven to be 100% recyclable via the German Dual System (DSD) and comparable European household recycling systems.
